

National Institute of Justice

Award Title: Developing a Forensic Resource/Reference On Genetics knowledge base	
Award Description: <p>The primary objective of this project is to provide a web interface "Forensic Research/Reference On Genetics knowledge base" (FROG-kb) conducive for teaching, research and a referential tool from a forensic standpoint. The underlying data will be provided by the already extensively used and referenced ALlele FREquency Database ALFRED (http://alfred.med.yale.edu). The project would allow even more specifically forensic SNP and STR data and information to be curated and entered. The new web based interface for FROG-kb will be designed to make these data available to forensic students, researchers, and practitioners in a relevant user-friendly manner.</p> <p>ca/ncf</p>	
Awardee Name: Yale University	Award Number: 2010-DN-BX-K226
Solicitation Title: NIJ FY 10 Forensic DNA Research and Development	Fiscal Year: 2010
Amount: \$643,771.00	Earmark: No
Recovery Act: No	State/Territory: CT
County:	Congressional District:
Award Status: Open
