

National Institute of Justice

Award Title: DEVELOPMENT OF A MODERN COMPENDIUM OF MICROCRYSTAL TESTS FOR ILLICIT DRUGS AND DIVERTED PHARMACEUTICALS

Award Description:

This project will create a compilation of microcrystal tests which have previously been developed for illicit drugs and diverted pharmaceuticals. The resulting electronic compendium will include recommended protocols and morphologies of crystals (including photomicrographs), infrared spectra of microcrystals, and potential interferences. This compendium will be available to all forensic scientists for free access from selected websites.
