

National Institute of Justice

Award Title: Smartphone Technology for Capturing Untreated Latent Fingerprints	
Award Description: This project proposes to leverage electro-optics (EO) technology to determine the feasibility of reliably collecting untreated latent fingerprints with current high-definition digital photography. The technology being exploited is the EO fluorescence of latent fingerprints in the UV/Blue wavelengths. ca/ncf	
Awardee Name: EOIR Technologies, Inc.	Award Number: 2011-DN-BX-K536
Solicitation Title: NIJ FY 11 Applied Research and Development in Forensic Science for Criminal Justice Purposes	Fiscal Year: 2011
Amount: \$208,085.00	Earmark: No
Recovery Act: No	State/Territory: VA
County: Spotsylvania	Congressional District: 01
Award Status: Open
