

National Institute of Justice

Award Title: Multimode Imaging in the Thermal Infrared: Validation for Blood, Extension to Latent Prints	
Award Description: This project will leverage previous NIJ-funded research that resulted in a laboratory prototype device for infrared visualization of blood on common fabric surfaces, to develop a rapid and non-destructive portable camera for visualization of latent blood at crime scenes. ca/ncf	
Awardee Name: University of South Carolina Research Foundation	Award Number: 2011-IJ-CX-K055
Solicitation Title: NIJ FY 11 Sensor, Surveillance and Biometric Technologies for Criminal Justice Applications: Evidence Identification at the Crime Scene	Fiscal Year: 2011
Amount: \$667,388.00	Earmark: No
Recovery Act: No	State/Territory: SC
County: Richland	Congressional District: 06
Award Status: Open
